EXPERIENCE

Social Media & Content Operations

June 2023 – Oct. 2025

University of Greenwich

Greenwich, London

- Conceptualised and produced technical and promotional video content for the Faculty of Engineering & Science, owning & managing the full production lifecycle from storyboarding to final render
- Collaborated with technical stakeholders (Academics, Researchers) to translate complex engineering concepts into accessible digital content, demonstrating the ability to bridge the gap between deep tech and user experience
- Maintained brand consistency across multiple platforms, ensuring high-fidelity output for major university campaigns (Clearing, Open Days)
- Participated within content creation for various marketing campaigns in the University (Inc. Clearing, Open Days) and starred in the University's Profile video for the Computer Science suite of degrees on YouTube

Senior UK Student Recruitment Ambassador

May 2023 – Oct 2025

University of Greenwich

Greenwich, London

- Led a team of 10+ staff and student ambassadors in clearing operations and day-to-day customer service, ensuring a high-quality experience for prospective students and their families during high-pressure periods
- Represented the university at external events, including UCAS fairs, panels, and school visits, effectively communicating the value of the university's offerings to a wide range of audiences
- Assisted in the planning of outreach initiatives, contributing to the university's recruitment goals through efficient planning and execution

PROJECTS & CONTRIBUTIONS

NFC-Based Guides

Python | HTML/CSS

- Designed & introduced an NFC-based event guide for University events, reducing the need on print materials and improving the user experience for attendees
- NFC-guide hosts all materials on guests's devices and utilises online resources to provide an interactive experience, including maps, schedules, and multimedia content

Event Automations

Python | Excel

- Developed an internal python tool to automate IT guest provisioning and analytics for NFC event guide engagement. This reduced the manual prep time for University/Faculty event prep time by approx. 10%

HandTyper (Dissertation)

Python | Java | OpenCV | Mediapipe

- Designed and implemented a computer vision-based hand gesture recognition system for virtual keyboard input, achieving an average accuracy of 90% across a dataset of 40000+ images

EDUCATION

University of Greenwich

Sep. 2022 – Jul. 2025

Computer Science BSc (Hons)

Greenwich, London

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning
- **Dissertation:** HandTyper – A Computer Vision-based Hand Gesture Recognition System for Virtual Keyboard Input
- **Extra-Curricular:** President of the Computer Science Society, Student Representative, Student Ambassador
- **Achievements:** University of Greenwich Instrumental Ambassador Award, Faculty of Engineering & Science Making a Difference Award

SKILLS

Languages : Python, Java, HTML/CSS, SQL, React (Currently Learning), TypeScript (Currently Learning)

Tools : Figma, Notion, Trello, Git, Github, Adobe Creative Suite (Premiere Pro, After Effects, Photoshop, Lightroom), OBS
